

ASYAM RAFIF AUBIN FAWWAZ

Jember, Jawa Timur Indonesia | asyamaubin@gmail.com | 089627507491

Enthusiastic Informatics Engineering student and Full-Stack Web Developer with practical experience in end-to-end web development, RESTful API design, and technical instruction. Highly skilled in Laravel, React.js, Tailwind CSS, and UI/UX design. Demonstrated track record of building reliable application solutions for real-world needs, while actively serving as a Tech Mentor to guide emerging programming talents. An adaptive learner passionate about continuously expanding technical expertise and contributing effectively to the collaborative technology sector.

WORK EXPERIENCE

Full-Stack Web Developer & Coding Mentor

Sep 2024 - Present

PT. SMART TECHNOLOGY SOLUTION – Jember, East Java, Indonesia

- Developed a Laravel-based School Management System (CMS) encompassing inventory modules, student financial tracking, and digital report card grading to significantly enhance school administrative efficiency.
- Acted as a technical mentor for internship participants, conducting rigorous code reviews, performing functional application testing, and ensuring the team adhered to high-quality software development standards.

Backend Developer

Jan 2025 – Jun 2026

PT. PRINGAPUS DIGITAL TECHNOLOGY – Malang, East Java, Indonesia

- Designed robust database architectures and developed RESTful API services for an e-commerce platform to ensure optimal data integrity and system performance.
- Integrated backend API services seamlessly with an Ionic Angular-based frontend application, ensuring all features functioned smoothly across the user interface.
- Contributed directly to the creation and delivery of tailored software solutions that met the specific operational requirements of industrial clients.

Coding Mentor & Teaching Assistant

Jan 2024 - may 2026

SMKN 8 JEMBER – Jember, East Java, Indonesia

- Provided comprehensive technical instruction on web development fundamentals and database management for 10th and 11th-grade students.
- Facilitated hands-on learning sessions utilizing modern web technologies, including HTML, CSS, JavaScript, PHP, and MySQL.

ORGANIZATION
